Hefner Machine & Tool, Inc. is a full service machine shop. It functions as a “Job Shop”, manufacturing products from many different industries, as well as the private sector. Whether a customer needs a single part repaired, a prototype built, or contract a high quantity production run, Hefner Machine & Tool will produce a quality job delivered on time. From a rough sketch or a worn out part, Hefner Machine & Tool can use it to build a new one. We take pride in our quality and delivery record. Quality procedures are strictly enforced.

Our Quality Mission is to provide innovative, consistent, high quality products that meet or exceed our customer’s requirements. Commitment to comply with the customer’s requirements and dedication to high product standards is what we stand by.

FACILITY LIST

TURNING

EURO TECH ELITE	1	Lathe, Twin Spindles with line tooling	B465-SY2	2-1/2" Diameter thru main spindle, 2 turrets with milling 1-3/8 Ø thru sub spindle. 8" chuck on main spindle, 6" chuck on sub spindle. Both spindles also use BA-80 collets and machine has live tooling	MAIN - 4000 SUB - 5000
EURO TECH ELITE	1	Lathe, Twin Spindles with line tooling	B481-SY2	3-1/2" Diameter thru main spindle, 2 turrets with milling 1-3/8 Ø thru sub spindle. 8" chuck on main spindle, 6" chuck on sub spindle. Both spindles also use B60-SC collets and machine has live tooling	MAIN - 3000 SUB - 4000
TONGTAI	1	Lathe, Twin Spindles with line tooling	TNL-100TLSB	2" diameter thru main spindle, 1-3/8 Ø thru sub spindle. 8" chuck on main spindle, 6" chuck on sub spindle. Both spindles also use 5C collets and machine has live tooling	MAIN - 4500 SUB - 5000
DOOSAN	1	Lathe 220	220	2.5" diameter thru spindle, LNS quick load Servo magazine and automatic bar load. 8" chuck	4,000
DOOSAN	1	Lathe 300	300	3.0" diameter thru spindle; 10" chuck, 12" maximum diameter processing	3,500
HAAS	1	Lathe	TL-1	Tool room lathe, fully programmable	1,800

EDM

• SODICK	1	WIRE EDM	AQ327L	14.57"	10.63"	9.84"
----------	---	----------	--------	--------	--------	-------

SAWS & GRINDERS

- MILTON Vertical Band Saw
- CHEVALIER FSG-618M Surface Grinder
- CLAUSING Automatic Band Saw 14"
- CLAUSING Cold Saw 12"

INSPECTION

Conforming to ANSI/ISO/ASQ Q9001-2015 International Standard

	TYPE	MODEL
• ABERLINK	CMM/3D/CNC	AXIOM-TOO
• MITUTOYO	CMM/3D/CNC	Cysta Apex S9166
• STARRETT (2)	Optical Comparator	HE400
• KEYENCE	Image Dimension Measuring System	IM-7001
• MITUTOYO	Surface Roughness tester	S-J-210
• MANTIS ELITE	10X Inspection Scope with Vision Engineering Image Capture Software package	
• MANTIS (4)	4X Inspection Scopes for precise F.O.D. screening and removal	

ASSEMBLY

- PEM-SERTER: series 4

1	Pneumatic installation press-, 6ton capacity with an 18" throat designed for PEM self-clinching. Fastener sizes: #0 (M2) thru 3/8 (M10) installed in aluminum or steel, sheet metal or type K in circuit board. Various insertion tools for mil-spec inserts and helicoils.
---	---
- KATO: Air Driven Installation Tool

2	Able to install tanged and tangless screw thread inserts
---	--

VACUUM CHUCKING

Hefner Machine & Tool makes all their own vacuum fixtures for thin and difficult to hold parts. This allows us to hold precision tolerances on very thin parts.

DEBURRING

- TUMBLE DEBURRING
- BEAD BLASTING

Hefner Machine & Tool has the capability for tumble deburring as well as grit / bead blasting using our ZERO PULSAR Bead Blast Enclosure for all of your specialized finish requirements
--

ENGINEERING

- Markforged X7 3D Printer

1	Materials: Onyx, Onyx FR, Nylon White, ABS, Carbon fiber, fiberglass, Kevlar®, HST fiberglass Build Volume: 330 x 270 x 200 mm (13 x 10.6 x 7.9 in) Machine Footprint: 584 x 483 x 914 mm (23 x 19 x 36 in)
